

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

The 18th century was a time of great change in the world. It was a time when the world was beginning to open up to new ideas and new ways of thinking. It was a time when the world was beginning to see the light of reason and science.

$\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$

$\frac{1}{2} \times \frac{1}{3} = \frac{1}{6}$

$\frac{1}{2} \times \frac{1}{4} = \frac{1}{8}$

$\frac{1}{2} \times \frac{1}{5} = \frac{1}{10}$

$\frac{1}{2} \times \frac{1}{6} = \frac{1}{12}$

$\frac{1}{2} \times \frac{1}{7} = \frac{1}{14}$

$\frac{1}{2} \times \frac{1}{8} = \frac{1}{16}$

$\frac{1}{2} \times \frac{1}{9} = \frac{1}{18}$

$\frac{1}{2} \times \frac{1}{10} = \frac{1}{20}$
